SUBJECT INDEX

Acidosis, hypertonicity of body fluids as cause of 180
Adams-Stokes attacks, fatal; congenital heart block with 32
Adenomatoid malformation, congenital cystic, of the lung 759
Adenalin in plasma and the respiratory distress syndrome (Letter) 668
Albumin, administration of, in management of hyperbilirubinemia by exchange transfusion 613
Alveolar lining layer, role in pulmonary mechanics and pathogenesis of atelectasis 324
Amebic perforation of the intestine in children 937
American Academy of Pediatrics (AAP)
AAP Acceptance of Presidency (Webb) 1005
AAP Presidential Address (Fischer, 1962) 836

"To See Ourselves as Others See Us" 660
AAP Reports of Committees
Seat Belts in prevention of automobile injuries 841
Amines, urinary excretion in normal children 576
Antibody responses to multiple antigen immunization 720
Aorta (See Great vessels)
Arteriovenous fistula, cerebral, in infancy; cardiac complications of 563
Ascites, chylous; hypoproteinemia and 696
Atelectasis, pathogenesis of 324

Bilirubin
Analysis of survey 12
Determinations as criterion for exchange transfusion (Commentary) 1
Blood; fetal hemoglobin in normal children and adults 262
Blood pressure in diabetes mellitus 932
Bone changes and incidence of tetany; relationship of parathyroid function in vitamin D deficiency rickets in South African Bantu infants 884

Bronchography, non-fluoroscopic technique 378

Calcium, strontium, and fallout (Letter) 333
Candidiasis, enteric; diagnostic and clinical considerations 71
Cardiac (See Heart)
Catecholamine determinations, serial; value in neuroblastoma 241
Catheterization, left heart 253
Central nervous system; sequelae after aseptic meningitis and leptospiral infection 803
Cerebral arteriovenous fistula in infancy; cardiac complications of 563
Chloride, potassium, and sodium concentrations of feedings; relationship to weight gain of premature infants 909
Chloride space, arithmetic and deficit therapy; evaluation of this parameter for estimating deficiencies of extracellular electrolytes in disease 990
Chorea, Sydenham's; hypothenar muscle H-reflex in; abnormal occurrence of ulnar nerve 49
Chromatin, sex; incidence in buccal smears of newborn infants 707
Cleft palate
Parent's reaction and early care 86
Treatment of Pierre Robin syndrome 450
Collagen diseases 477
Commentaries
Bilirubin in serum as criterion for exchange transfusion 1
Cardiopulmonary changes in respiratory distress. Clinical observations and physiological exploration 859
Iron needs in infancy 516

Pediatric research and pediatric publication 347
Pediatrician and psychiatrist 679
Primum non noncere 513
Sweat test 167
Heart block with fatal Adams-Stokes attacks 32
Craniostenosis; review of literature and report of cases 57
Cystic adenomatoid malformation, congenital, of lung 759
Cystic fibrosis
Effect on sodium and potassium content of human sweat 172
Nasal polyps in patients with 389
Cystinosis; effects of potassium deficiency on the heart of child with 414
Cysts, bronchogenic mediastinal 372

Deafness, sensori-neural, and other anomalies; familial ectodermal dysplasia with 797
Diabetes mellitus
Blood pressure in children with 932
Juvenile 477
Diets
Influence on growth 639
Varying in protein concentrations; protein levels in serum of premature infants 622
Diagnostic tests for lead poisoning (Letter) 1013
Digoxin dosage in newborn animals and children (Letter) 332
Dilantin; erythema multiforme exudativum, fatal case, following therapy with 592
Diphenylhydantoin sensitivity, fatal liver necrosis and 595
Diphtheria
In the United States 194
Poliomeyelitis, pertussis, and tetanus; multiple antigen immunization against 720
Divorce; detection and management of pediatric difficulties caused by 950
Dressings which conceal hemorrhage (Letter) 1013
Drugs
Digoxin dosage in newborn infants and children (Letter) 332
Vincristine sulfate; preliminary report; agent for treatment of acute leukemia 791
Dysplasia, familial ectodermal, with sensori-neural deafness and other anomalies 797

Ectodermal dysplasia (See Dysplasia)
Education
Academy and developing countries (Letter) 331
Medical: a new pattern 498
Opportunity for teaching and investigation; pediatric care for migrant workers 284
Release of information to the lay press (Letter) 159
Resident in non-university hospital (Letter) 497
Who will advise mothers? (Letter) 331
Electrocardiography; findings in healthy premature infants 361
Electrolytes, extracellular; estimating deficiencies in disease 990
Emotional health, office visits and (Letter) 497
Emphysema, giant bullous, in tuberculosis in childhood 269
Environment, family, influence on growth 957
Epidemiology, investigation of streptococcal and rheumatic fever epidemic 712
Epilepsy, petit mal 893
Epithelioma, calcifying (See Pilomatrixoma)
Erythema multiforme exudativum, fatal case, following therapy with dilantin 592
"et al" (Letter) 664
Ethadione (See Oxazolidine-diones)

Fallout
Calcium, strontium, and (Letter) 333
Radioactive; hazards of (Letter) 668, 844
Familial Mediterranean fever (See Polyserositis, recurrent)
Fatty acids, essential, in premature infant feeding 136
Feeding, infant
Premature; essential fatty acids in 136
Unsterile formulas (Letter to the Editor) 159
Fibrosis, idiopathic retroperitoneal; first case observed in a child 225

Glomerulonephritis, acute and chronic, and nephritis of anaphylactoid purpura 297
Glossoptosis; treatment of Pierre Robin syndrome 450
Glucagon, hyperglycemic response to; effect of cortisol on 769
Great vessels; muscular subaortic stenosis in siblings 749
Growth and development
Influence of diet and other factors on growth 639
Influence of family environment on 957
Iron intake, hemoglobin, and physical growth during the first two years of life 518
Of children with patent ductus arteriosus 540

Health message, President John F. Kennedy's, to Congress (President's Message) 157
Heart
Cardiopulmonary changes in respiratory distress (Commentary) 859

Catheterization, left 253
Complications of cerebral arteriovenous fistula in infancy 563
Congenital defects (See also Great vessels)
Block, with fatal Adams-Stokes attacks 32
Mitral stenosis 552
Patent ductus arteriosis, factors in growth of children with 540
With herniation into the pleural space 746
Effects of prolonged neonatal hypoxemia on pulmonary vascular bed and heart 902
Murmurs, "innocent"; 20-year follow-up study 42
Hematuria, idiopathic 477
Hemoglobin
Concentration, iron intake, and physical growth during the first two years of life 518
Fetal; distribution in blood of normal children and adults 262
Hemorrhage; dressings which conceal (Letter) 1013
Hepatolenticular degeneration; the liver in juvenile Wilson's disease 402
Home care of mongoloid children (Letter) 1007
Hospitalism, a note on 995
Hydrocephalus and meningocele 809
Hyperbilirubinemia
In premature infants; difference in incidence in two hospitals 3
Management by exchange transfusions; administration of albumin in 613
Hyperphosphatemia, neonatal 425
Hypertonicity of body fluids as cause of acidosis 180
Hypoglycemia neonatal; hepatic carbohydrate metabolism in; effects of epinephrine, glucagon, and galactose 125
Hypoproteinemia, etiology of, in patient with chylous ascites 696
Hypoxemia
Chronic; temperature regulation in infants with 350
Prolonged neonatal; effects on pulmonary vascular bed and heart 902

Icterometer (Letter) 664
Immunization, multiple antigen; poliomyelitis, diphtheria, pertussis, and tetanus; evaluation of antibody responses 720
Incontinentia pigmenti; three cases in one family 433
Injections, intramuscular; preferred site in infants and small children (Letter) 160
Intestine
Amebic perforation 937
Tuberous sclerosis with angiomatous malformation and albumin loss 681
Iron intake, hemoglobin, and physical growth during the first two years of life 518
Iron needs in infancy (Commentary) 516

Klebsiella-Aerobacter pneumonia in infants 206

Lead poisoning, diagnostic tests for (Letter) 1013
Leptospiral infection; aseptic miningitis associated with; central nervous system sequelae after 803
Leukemia, acute; vincristine sulfate for treatment of 791
Leukodystrophy, metachromatic; clinical, histochemical, and cerebrospinal fluid abnormalities 629
Liver
Hepatic carbohydrate metabolism in neonatal hypoglycemia 125
In juvenile Wilson's disease 402
Necrosis, fatal; and diphenylhydantoin sensitivity 595
Lungs (See also Pulmonary; Respiratory; and individual disorders)
Congenital cystic adenomatoid malformation 759
Congenital pericardial defects with herniation into the pleural space 746
Volume in the newborn infant 111

"Maternal deprivation," syndrome of 957
Medical care
Of physicians' children (Letter) 666
Pediatric, for migrant workers 284
Meningitis, aseptic, and leptospiral infection; central nervous system sequelae 803
Meningocele, hydrocephalus and 809
Micrognathia; treatment of Pierre Robin syndrome 450
Migrant workers, pediatric for 284
Mitral stenosis, congenital 552
Mongoloid children, Home care of (Letter) 1007
Muscle, hypothenar; H-reflex in Sydenham's chorea 49
Mycobacteria, unclassified, as causative agent in positive tuberculin reaction 221

Nephritis of anaphylactoid purpura 297
Nephrotic syndrome 459
Nerves, ulnar; abnormal occurrence of; hypothenar muscle reflex in Sydenham's chorea 49
Neuroblastoma, value of serial catecholamine determinations in 241
Newborn infants
Carbohydrate metabolism in 769
Hepatic carbohydrate metabolism in hypoglycemia 125
Hyperphosphatemia in 425
Hypoxemia, prolonged; effects on pulmonary vascular bed and heart 902

Lung volume in 111
Neonatal thrombocytopenic purpura 776
Pulmonary function in 963, 975
Sex chromatin in buccal smears of females 707
Newborn infants and animals; digoxin dosage in (Letter) 332
Nutrition, prenatal and neonatal (Borden Award Address) 145

Office visits
And emotional health (Letter) 497
Frequency of (Letter) 666
Oxazoldine-diones (trimethadione, ethadione, and paramethadione), renal histology during treatment with 601

Paramethadione (See Oxazolidine-diones)
Parathyroid function, bone changes, and incidence of tetany in vitamin D deficiency rickets in South African Bantu infants 875, 884
Patent ductus arteriosus (See Heart, congenital defect)
Paternal deprivation 91
Pediatric care, payment for (Letter) 1012
Periodic disease (See Polyseresitis, recurrent)
Pertussis, poliomyelitis, diphtheria, and tetanus; multiple antigen immunization against 720
Phocomelia, thalidomide and 654
Phosphorus excretion index in vitamin D deficiency rickets in South African Bantu infants 875
Physicians' children as patients 100
Physicians' families paying for medical care 109
Pierre Robin syndrome, treatment of 450
Pilomatrixoma in children 233
Pneumocystis carinii, fatal pulmonary disease due to 784
Pneumonia, Klebsiella-Aerobacter, in infants 206
Poisoning, lead, diagnostic tests for (Letter) 1013
Poliomyelitis, diphtheria, pertussis, and tetanus; multiple antigen immunization against 720
Polyposis, nasal, in patients with cystic fibrosis 389
Polyserositis, recurrent 443
Potassium, chloride, and sodium in feedings; relationship to weight gain of premature infants 909
Potassium deficiency; unusual effects on heart of child with cystinosis 414
Premature infants
Essential fatty acids in feeding 136
Healthy; electrocardiographic findings in 361
Hyperbilirubinemia; incidence in two hospitals 3
Protein levels in serum during diets varying in protein concentration 622
Sodium, potassium, and chloride of feeding; relationship to weight gain 909
Protein in serum of premature infants fed diets varying in protein concentrations 622
Proteinuria, idiopathic 477
Psychiatry, preventive; possibilities for 815
Psychiatric unit, inpatient, supportive role of pediatrics in 829
Psychiatrist, pediatrician and (Commentary) 679
Publication, pediatric; pediatric research and (Commentary) 347
Pulmonary disease, fatal, due to Pneumocystis carinii 784
Pulmonary function in the newborn infant
Perfusion; estimation by analysis of the arterial-alveolar carbon dioxide difference 975
Ventilation and gaseous metabolism 963
Pulmonary mechanics; role of alveolar lining layer 324
Pulmonary vascular bed and heart; effect of prolonged neonatal hypoxemia on 902
Purpura, neonatal thrombocytopenic 776
Pyelonephritis, prevalence at autopsy 737

Renal biopsy, percutaneous
Collagen diseases, juvenile diabetes mellitus, and idiopathic hematuria and proteinuria 477
General considerations 287
Glomerulonephritis and nephritis of anaphylactoid purpura 297
Nephrotic syndrome 459
Renal disease (See also individual disorders)
Renal histology during treatment with oxazolidinediones 601
Renal vein thrombosis, acute idiopathic, in infants 247
Research, pediatric, and pediatric publication (Commentary) 347
Respiratory distress
Cardiopulmonary changes in (Commentary) 859
Syndrome; adrenalin in plasma and (Letter) 668
Rheumatic fever epidemic, streptoccal and 712
Rickets, vitamin D deficiency; parathyroid function in, in South African Bantu infants 875, 884

Seat belts in the prevention of automobile injuries (Report of Committee) 841
Sex chromatin (See Chromatin)
Sclerosis, tuberous, with angiomatous malformation in ilium, and albumin loss into lower intestinal tract 681
Sodium, potassium, and chloride concentrations of feedings; relationship to weight gain of premature infants 909
Stevens-Johnson syndrome (See Erythema multi-

forme exudativum)
Streptococcal infection and rheumatic fever epidemic 712
Strontium, calcium and fallout (Letter) 333
Sweat; sodium and potassium content; effect of age, sex, and cystic fibrosis on 172
Sweat test (Commentary) 167

Temperature regulation in infants with chronic hypoxemia 350
Tetany in vitamin D deficiency rickets in South African Bantu infants; relationship of parathyroid function to bone changes 884
Thalidomide and phocomelia 654
Thrombocytopenic pupura, neonatal 776
Thrombosis, renal vein, in infants 247
